SUMMARY

Motivated IT graduate holding a Higher NITEC in IT Systems & Networks with Merit from the Institute of Technical Education and a Diploma in Infocomm & Security with Merit from Nanyang Polytechnic, with real-world experience as a DevOps Engineer Intern at the Monetary Authority of Singapore. Hands-on across CI/CD automation, network security, system administration, and full-stack development. Consistently recognized for academic excellence and technical performance, with a strong foundation built across both industry and academic environments.

EDUCATION

Nanyang Polytechnic (NYP), Singapore

Apr 2023 – Mar 2026

- *Diploma in Infocomm & Security with Merit* | **cGPA: 3.88/4.0**
- **Relevant Coursework:** Cyber Security Attack & Defense, Systems & Network Security, Database Management Systems, Network & Communications, Network Technology, System Administration & Security, Advanced Web Application Development, Data Structures & Algorithms, IoT Data Management, Computer & Network Forensics, Governance, Risk & Compliance
- **Awards:** Cisco Systems Silver Medal for Outstanding Academic Performance (2nd in Cohort), NYP Scholarship, Best Performing Student in Year 1, Director's List (4 Semesters), Edusave Skills Award 2025, Edusave Academic Achievement Award 2024 & 2025, Medallion for Excellence - WorldSkills Singapore 2025

Institute of Technical Education (ITE) College East, Singapore

Apr 2021 – Mar 2023

- *Higher NITEC in IT Systems & Networks with Merit* | **cGPA: 3.867/4.0**
- **Relevant Coursework:** Systems Programming, Wireless & Network Security, Advanced Networking, Virtualization, Applied Scripting Using Python, Computer Maintenance & Operating Systems, Networking Technology, Linux Essentials
- **Awards:** Outstanding Graduate Award (1st in Cohort), Director's List (3 Semesters), Edusave Academic Achievement Award 2022 & 2023, Edusave EAGLES Award 2023, Edusave Character Award 2022, Gold Service Star Award

TECHNICAL SKILLS

- **Languages:** Python, C#, JavaScript, HTML, CSS, Bash, SQL
- **Frameworks & Libraries:** Flask, ASP.NET Web Forms, Tailwind CSS, Bootstrap
- **CI/CD & DevOps:** GitLab CI, Python Automation, Bash Scripting
- **Containers & Deployment:** Docker, Podman, OpenShift
- **Security Tools:** Kali Linux, Wireshark, Autopsy, FTK Imager, Nexus IQ
- **Networking:** LAN/WAN, TCP/IP, OSPF, VLANs, VPN, Firewalls, ACLs, DNS, DHCP, NAT
- **System Administration:** Windows Server (2016/2019/2022), Linux (Debian, Red Hat, Ubuntu)
- **Databases:** SQL Server, MySQL
- **Data & Analytics:** Tableau, KNIME, Orange
- **Virtualisation & Lab:** VMware, Cisco Modeling Labs
- **Design:** Figma, Canva

WORK EXPERIENCE

Monetary Authority of Singapore (MAS), DevOps Engineer Intern, Singapore

Sep 2025 – Feb 2026

- Architected and built an automated vulnerability scanning pipeline performing Nexus Repository artifact scans and Nexus IQ application analysis across 4 ecosystems and 2 environments, generating reports for 200+ applications and reducing manual validation effort by ~70%.
- Designed and deployed 15+ GitLab CI/CD pipelines and reusable templates, including migration of legacy Jenkins pipelines to GitLab CI.

- Developed Python REST API automation to fully automate GitLab group and project onboarding, access provisioning, and permission management, reducing manual setup effort by ~80%.
- Supported 5+ application teams in OpenShift deployments, DAST pipelines, and CI/CD automation.

Neo Electronics Pte. Ltd., *IT Intern*, Singapore

Jun 2022 – Aug 2022

- Supported customer service by resolving technical queries and troubleshooting IT issues.
- Performed regular maintenance and updates on computer systems.
- Assisted with configuration and quality checks of IT devices prior to deployment.

PROJECTS EXPERIENCE

Systems & Network Security Project, *Academic Project*, Systems & Network Security

May 2025 – Aug 2025

- Designed and implemented an enterprise-grade campus network for Nanyang Polytechnic using Cisco Modeling Labs and VMware, supporting on-campus and remote access for students, staff, and administrators.
- Configured multi-domain network segmentation with VLANs, OSPF routing, and a DMZ hosting public web and mail services with HTTPS/TLS and a Certificate Authority.
- Implemented full security stack including VPN, RADIUS/AAA, Firewalls, ACLs, Port Security, BPDU Guard, SSH hardening, SFTP/FTPS, and Layer 2 attack prevention.
- Conducted penetration testing on the DMZ and performed banner hardening to verify ACL enforcement and minimize information leakage.

Pawfect Supplies, *Academic Project*, Advanced Web Application Development

Jan 2025 – Feb 2025

- Built a secure e-commerce platform using ASP.NET Web Forms (C#) and SQL Server with Stripe-powered checkout and real-time cart management.
- Implemented authentication features including BCrypt password hashing, email OTP 2FA, OAuth 2.0, and email verification.
- Secured against SQL injection and XSS using parameterized queries, with session management and OTP-based password recovery.
- Developed admin dashboard for product, category, and order management via stored procedures.

MyUploads, *Academic Project*, Systems Security Project

Jun 2024 – Aug 2024

- Developed a secure file upload and storage platform using Python Flask and MySQL, with a strong focus on authentication and data protection.
- Implemented multi-factor authentication methods including email OTP, SMS OTP via Twilio, authenticator app-based 2FA, and OAuth login via Google.
- Built bot prevention using hCaptcha, email verification, and login alerts triggered by unrecognised IP addresses or devices.
- Secured account recovery through email and SMS OTP, with phone number verification and full input validation throughout.

LEADERSHIP EXPERIENCE

WorldSkills Singapore 2025, *Competitor*, IT Network Systems Administration

Jun 2024 – Apr 2025

- Represented NYP at the national-level competition, awarded Medallion for Excellence in IT Network Systems Administration.
- Completed 10 months of intensive training in advanced networking, security hardening, and system administration across Linux and Windows environments.

School of IT Club, *Subcommittee Member*, Nanyang Polytechnic

May 2023 – Sep 2025

- Took on multiple roles across school events including Game Master for Camp Eureka 2024 and Camp Nautilus 2025, Facilitator for Operation Breakout 2024, and Mentor for Freshman Orientation 2024.
- Volunteered at NYP Open House 2024 & 2025, Parent's Seminar 2025, EAE Festival 2023 & 2024, and School of IT Day 2024.
